

SUCCESS STORY | BISCUITVILLE

After

Key Facts

- Improved Visibility
- Safer Environment
- Improved Security

Project Details

To combat darkness in peak of this project. By using business hours, Biscuitville custom optics and re-asked US Lighting to help designing their lighting system, we were able to them substantially increase them system, we were able to the light levels and create a increase light levels up to more uniform distribution of 3X and more importantly light throughout the entire distribute the light more parking lot. Energy savings evenly to get rid of were not the primary driver shadowy areas.

Biscuitville, a successful chain of Fresh Southern food restaurants, now has happy customers and a more safe and secure environment.
